

Exporting Positive Lab Results in EpiTrax

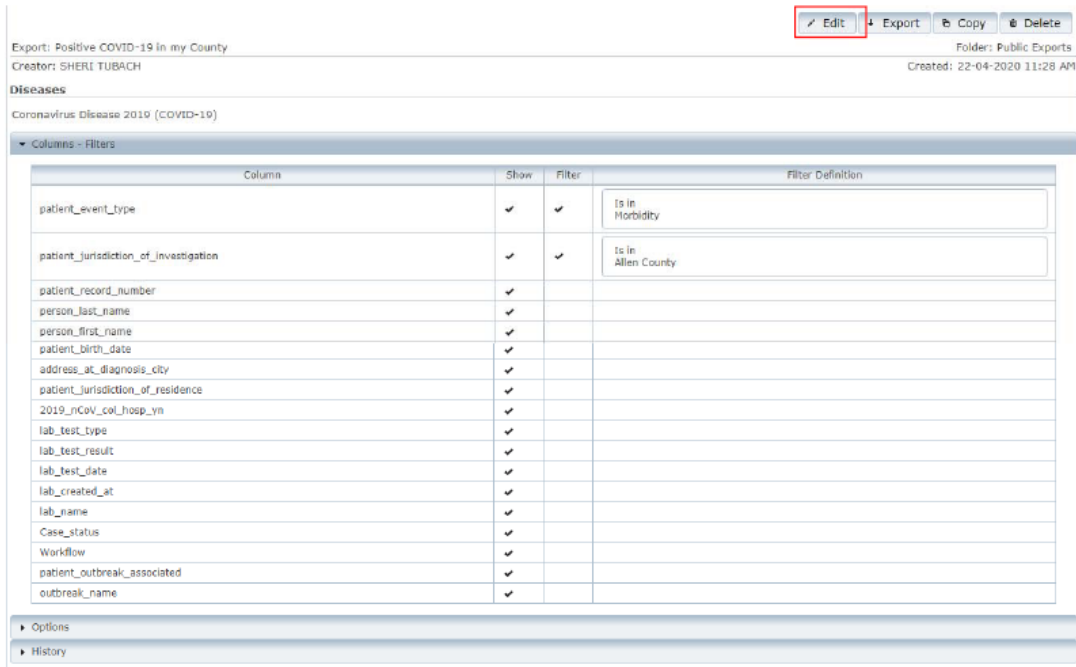

1. To download a report of all positive COVID-19 Cases in your jurisdiction, select the “Exports” tab at the top of the screen, choose “Public Reports”, then choose “Positive COVID-19 in my County”.

➔ Public Exports

➔ Positive COVID-19 in my County

2. Select the “Edit” button at the top right:

Export: Positive COVID-19 in my County
 Creator: SHERI TUBACH
 Folder: Public Exports
 Created: 22-04-2020 11:28 AM

Diseases
 Coronavirus Disease 2019 (COVID-19)

Options
 History

Then select the “Is In” drop down and choose your jurisdiction from the list:

The screenshot shows a web application interface with a search filter for 'patient_jurisdiction_of_investigation'. The filter is set to '2'. A dropdown menu is open, showing a list of jurisdictions: Allen County, Anderson County, Atchison County, Barber County, Barton County, Blood Lead EMSA, Bourbon County, Brown County, and Butler County. The 'Is In' dropdown is also visible, and the 'Include null values' checkbox is checked.

3. Select “Export” and a file will download and open in Microsoft Excel, allowing you to sort by the lab test date to identify the newest cases. If a case has multiple lab results associated, it will list each lab in a separate row.
